ABOUT US

GAI Consultants is an employee-owned engineering, planning, and environmental consulting firm providing award-winning solutions and local expertise to worldwide clients in the energy, transportation, development, government, and industrial markets.

Founded

August 1958–Pittsburgh, PA

Employees

900+ employees company-wide

Revenue

\$134+ Million annually

Ownership

100 percent employee-owned (ESOP)

VISION | To strategically grow our business, nationally and internationally, in partnership and trust with our clients and staff.

MISSION | We meet our clients' challenges by empowering our employee-owners to transform ideas into reality®

CORE VALUES | Integrating integrity, trust, and quality into all that we do • Delivering outstanding client service and communication • Enhancing business through high ethical standards • Acknowledging our employees' achievements • Strengthening our success through safety

Services Offered

- Airport Planning, Design Engineering, and Construction Services
- Bridge and Structure Inspection and Design
- Coal Combustion Residuals Management
- Construction Inspection and Management
- Cultural Resources Management
- Economic Analyses and Strategies
- Electric Transmission Design and Siting
- Environmental Engineering
- Environmental Studies, Species Studies, Permitting
- Gas Pipeline Surveying and Mapping
- Geographic Information Systems (GIS)
- Geotechnical Engineering and Geology
- Impoundment and Landfill Permitting and Design
- Land Development Engineering
- Landscape Architecture and Design
- Master Planning and Urban Design
- Mechanical, Electrical, Structural Engineering
- Natural Gas FERC Certification and Permitting
- Nuclear Energy Engineering Support
- Right of Way and Appraisal Support
- Land Surveying and Mapping
- Transportation Planning and Design
- Utility Management Consulting
- Water, Stormwater, Wastewater Management

Markets Served

- Energy
- Transportation
- Water
- Municipal
- Government
- Industrial
- Real Estate
- Education
- Healthcare

Awards

- More than 55 Engineering Excellence Awards
- *Engineering News-Record*:
 - Top 500 Design Firms, 2006–2018 (No. 116)
 - Top 200 Environmental Firms, 2008–2018 (No. 141)

LEADERSHIP

Chairman and Chief Executive Officer | Gary Dejidas, PE, MBA

Chairman and CEO Gary Dejidas, PE, MBA began his career with GAI as a civil engineer in the Pittsburgh office in 1972. In 1982, Gary opened GAI's first branch office in Orlando, Florida. With Gary as President, the subsidiary, GAI Southeast, Inc., grew to more than 100 professionals in Orlando and Jacksonville. When GAI consolidated its operating companies in 2003, Gary was elected Chairman of the company Board of Directors and President/CEO of the newly formed GAI Consultants, Inc.

Under his leadership, GAI has experienced exciting growth, geographic expansion, and fiscal success. In 2017, consistent with GAI's succession planning strategy, Gary transitioned from President and CEO to Chairman and CEO. He will remain in this role for several more years to assist in a smooth and orderly leadership transition.

Gary is Chairman of the Terra Insurance Group, an insurance provider to the A&E industry, and sits as a trustee to Point Park University, his alma mater.

President | Anthony Morrocco, PE, PLS, MBA

Anthony Morrocco joined GAI in 1989, assumed the role of Senior Vice President and COO in 2009, became Executive Vice President in 2011, and was named President in 2017. He took a leadership role more than 20 years ago by recognizing the need for GAI to provide industrial, commercial, and residential land development services and ultimately founding the firm's land development and survey groups. Under his direction GAI has won significant projects that changed the skyline of Pittsburgh. Tony has been instrumental in successfully transitioning GAI to a business unit organization and continues to provide visionary and strategic leadership for GAI's professional and administrative staff in all offices. Focused on providing employees with the tools and information they need, he monitors project manager workload and responsibilities through town hall meetings, focus groups, and employee surveys.

Senior Vice President | Gregory Nettuno, PE, MBA

Senior Vice President Gregory T. Nettuno, PE, MBA is GAI's Infrastructure Business Unit Director and serves on the Board of Directors. Greg joined GAI in 1998. Bringing a strong background in construction engineering and a keen understanding of what it takes to successfully deliver a project, he built GAI into a valued design-build partner on transportation projects nationwide. In 2016, Greg was named GAI's Infrastructure Business Unit Director, overseeing a staff of technical professionals and project managers throughout the Northeast, Midwest, and Southeast. With his visionary guidance and bold strategic initiatives, he is focused on building upon the firm's vast technical depth in the infrastructure markets of healthcare, development, higher education, government, community planning, aviation, bridge design and management, complex roadway engineering, construction management, and train control systems.

Senior Vice President | Stephen Gould, QEP, MBA

Stephen Gould joined the firm in 1992 when he introduced GAI and the environmental services area to the specialized abilities of geographic information systems (GIS), as well as GPS data management, virtual GIS and predictive modeling, siting constraint analyses, and asset management. After 20 years of skillfully managing environmental engineering projects for high-profile energy initiatives, Steve became GAI's Energy Business Unit Director in 2013. He is a dedicated professional that engages staff and has a high regard for clients' unique needs and concerns. Steve's ability to meet clients' needs and align with their direction has been the stimulus for GAI's continued success in providing support to clients in the energy market.

LEADERSHIP

Karl Palvisak, CPA

Chief Financial Officer / Vice President | Karl Palvisak, CPA, MBA

Karl Palvisak began his career with GAI in the Orlando, Florida office in 1992 and within five years became Accounting Manager. He was personally responsible for the success of GAI's accounting consolidation efforts in 2003, spearheading the blending of two separate accounting systems between GAI's former subsidiary companies. In January 2004, Karl was appointed Chief Financial Officer and now oversees GAI's corporate accounting operations and staff. He has also been responsible for implementing and overseeing GAI's accounting database system, which stores GAI's financial, project, and business development data and provides for data sharing among all GAI offices.

Jeffrey Hill

Chief Administrative Officer / Vice President | Jeffrey Hill

Jeff Hill is Vice President and GAI's Chief Administrative Officer, responsible for providing cohesive executive and strategic leadership to GAI's Corporate Service Departments and Office Leaders. He has more than 30 years of professional experience spanning both small startup companies and top-ranked architectural and engineering firms. Throughout his career, Jeff has provided operational leadership, project and program management, strategic plan development and implementation, business development, client relationship management, organizational transition, profitable P&L management, and talent development for both domestic and international operations. Jeff holds a bachelor's degree in Environmental Health from East Carolina University and is a graduate of the University of Pittsburgh Entrepreneurial Fellow Program.
